A Little Blue Fly

Mathias Friman

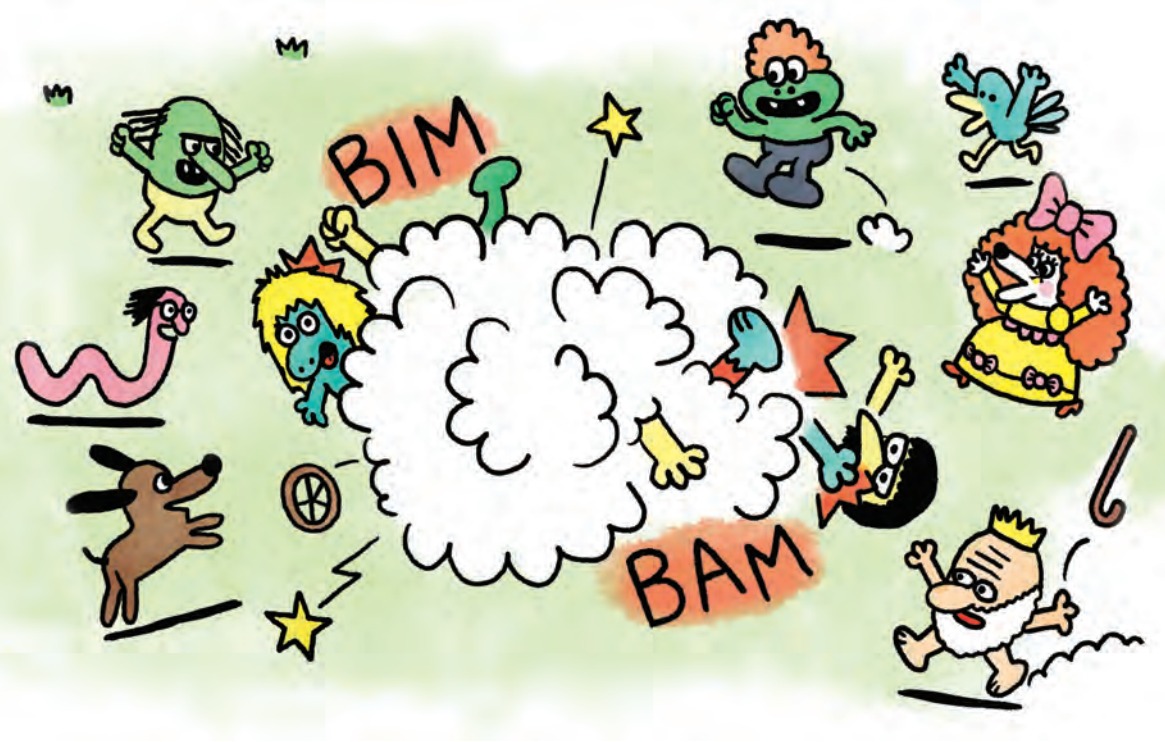

The food chain as you have never seen it before, in a hiking tale as classical as funny!

It all starts with a little blue fly crossing the path of a frog. The frog swallows the little fly in one gulp... and turns all blue. The roughest and funniest sides of the food chain come to life in this hiking tale. Nobody escapes, small or large, insects or mammals: everyone becomes blue and ends up being eaten.

With its realistic illustrations, punctuated with a beautiful electric blue, this classical looking album will enthrall little readers, wanting to always be a step ahead of the characters, laughing at the idea of them being eaten in turn.

Kidnapping In Bogey Village! Mrzyk & Moriceau

Do you remember the Bogey village? Dive back into this wacky universe's wild new adventure by Mrzyk & Moriceau!

In the previous « Panic At Bogey Village », the Boulette family had been kidnapped by a giant finger. In this new story, little readers will find out what has become of them...

After a rough kidnapping, the family is finally safe and finds out that the fingers took them for a specific purpose! They need them to use their small size to go underground in a maze of galleries to find a precious treasure: their nail-clipper.

Mrzyk & Moriceau's comeback is great in this insane new adventure. After the success of the first album, little readers will rejoice at the return of the absurd humor and pop visuals of this contemporary artist couple.

Coco's Crew

Christophe Nicolas & Anouk Ricard

Coco's crew, characters that are unbearable yet adorable... like all children!

In a funny and quirky tone, Christophe Nicolas reaches out to his young readers. Anouk Ricard's characters are, as always, hilarious, and make the reading of this sassy little album a beautiful moment of shared pleasure.

These small books are hilarious and mocks small children's all too well-behaved heroes.

Fighting Coco

With his frown and clenched fists, Coco doesn't look very friendly today. "What do you want my little Coco? A hug?" But Coco, armed with his hammer, doesn't look like he wants a hug, a kiss or a teddy...

Muddy Princess

Princess is really pretty in her princess' dress and hat. «You are so beautiful Princess; can I have a little kiss?» But Princess doesn't look like she wants one. What she likes is playing mud merchant with Coco and eating tons of chocolate cake..

Hernig & Zebraël

Victor Boissel & Beax

A tale of subtle humour, a thrilling saga, a modern initiation story, a dazzling illustrated novel... There are lots of ways to define the literary UFO that is Hernig & Zebraël...

Everything opposes Hernig, a lonesome and silent man, and Zebraël, a spirited and charming teenage boy... But these two heroes will have to unite and travel together on a quest that will lead them much further than the wolf's den, to the very depths of the world, on the hunt for a forever-lost Eden. The writing of Victor Boissel, young virtuoso author, transports us from the very first lines of the album.

The illustrations by Beax, whose first book this is, shows a great talent for composition and colours. This large-format album is printed in spot colour, so that the object would be as surprising as its content.
