# MY BABY'S DAY

Soledad Bravi

**From breakfast to bedtime, the key moments of a baby's day illustrated with simplicity and mischief by Soledad Bravi.**

Don't be fooled by the simplicity of this book: in Soledad Bravi's world, magic hides in the details. The iron guardrail that takes us immediately to a stylish Parisian flat, the hairy dad who gave his hairy genes to his offspring, the

loving and faithful dog who lives his day at the pace of the baby and really enjoys being pampered, even since the baby's birth.

This is everyday life, but not the next-door one!

A book that will quickly become a must-have for young parents, as essential as baby bottles.

# ACTIVITY BOARDS FOR BABIES

**Atelier Saje**

**Taking their inspiration in the vintage Fisher Price Activity Centers, the paper designers duo of l'Atelier Saje invented their own version of these iconic toys for babies: a plastic free version, taking the form of a book, sturdy and tender.**

Three large spreads (and a cover!) offering a wide range of activities for the little hands: sliders, wheels, crinkly cloth to touch and lift, and a mirror. Perfect to develop toddlers' fine motor skills.

A large playing board book illustrated with tenderness, and a range of very bright primary colours.

Can be used:

- Flat on the ground: its large format and its "upside-down" pages allow two children to play together. Ideal for nurseries and large families.
- Vertical: Thanks to its flexible binding, the book can be left opened against a wall, or even better, on the edges of a cot or a gantry bar. All this without danger!

Subject to CE tests for children under 3 years old.

# THE WATERSLIDE

fundamental contrary notions,  
while experiencing the great thrill!

and hearing simple words and  
onomatopoeia, this book is also a visual  
and sensory candy thanks to its neon  
pink Pantone and its shiny selective  
varnish, which allows children to  
follow the routes of the slide with  
their fingers.**
