

A FRENCH PUBLISHERS AGENCY

Hannele & Associates represents French and French-language publishers internationally. Specializing in children's books and coffee table books, we manage foreign rights for independent publishing houses with demanding editorial and graphic criteria, offering a wide range of titles for young people and high-standard books on art and nature. The lists include numerous award-winning titles.

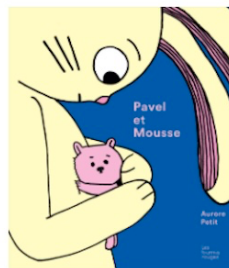

We develop the sale of rights, organize coeditions, and propose tailor-made publications from our publishers, while following the life of these works around the world. Today it represents more than a thousand titles published in approximately 42 languages.

A 30-YEAR EXPERIENCE IN BOOK PUBLISHING

Hannele Willig started her career in the 90s at Gallimard Jeunesse and De Agostini-Rand McNally in Paris and London. She has developed coedition and coproduction for these two companies with ambitious publications such as atlases and large coedition runs in dozens of languages and millions of copies.

She has been a literary agent for 25 years now. She launched her independent business with Editions Thierry Magnier and Editions Sarbacane in 2000. She has traveled the world presenting these books to publishers at international book fairs and trips.

Hannele also works with publishers through regional book agencies to provide training and coaching in foreign rights and has given lectures to master's students at the University of Paris, Limoges, and Clermont-Ferrand. She is keen to promote children's books and reading through workshops and presentations, and she reads books to small children in her local school every week.

CHILDREN'S BOOKS

It's been a long love story with books and reading, starting at 7 years old in the class where Hannele read all the books available in the small library. It's also been a long-lasting relationship with publishers Rue du Monde, Les Fourmis Rouges, Éditions MeMo, Courtes et Longues, Okidokid to gather lists together and propose books for all ages, from babies to teenagers. This year we celebrate our first major bestseller, with 100k copies sold in France and 15 foreign editions to come, a picture book entitled *Poisson-Fesse*, by Pauline Pinson and Magali Le Huche.

NATURE BOOKS

Hannele is a keen observer of nature and a hiker. It's always been a concern for her to pay attention to the natural environment. The encounter with Julien Perrot, creator of nature magazine and publisher of La Salamandre, and a precursor in the field, has been a real inspiration for her. The catalogue presents encyclopedias, essays, field guides, and stunning photography books created by specialists of nature and scientists. It invites us to watch, admire, and care for our natural environment.

ART BOOKS AND ARTIST BOOKS

Close collaboration with Editions Courtes et Longues started a few years after the creation of the publishing house in 2005. Founder Jean Poderos has been working in publishing and the art press for 30 years. The catalogue includes prestigious co-editions with national museums such as the Louvre Museum, Musée d'Orsay, Musée des Confluences, etc. The art books lists at the agency include non-fiction on art for children and adults, coffee table books, exhibition catalogues, heritage, artist books, and activity books.
