WHAT IS DADA?

THE LEADING SERIES TO DISCOVER ART

Since 1991, DADA is the leading series in France to discover art. We publish beautiful non-fiction books, and a magazine with 9 high quality issues per year (which can be translated as such in every country, or easily adapted into books).

PAINTING, DRAWING, SCULPTURE & MORE

We believe at DADA that all sorts of art are equally interesting. So we treat with painting, sculpture but also photography, cinema, architecture, street art... In our catalogue, Leonardo da Vinci meets Tim Burton, Monet is next to Warhol and Rodin lives with Le Corbusier and Miyazaki!

ART FOR EVERYBODY

DADA has been created to bring art to anyone, whether they are a child, a parent, a teacher, a grandpa... We use simple but not childish words to explain the artists and their technics, that we illustrate and comment with beautiful pictures of their works. We want DADA to please your mind... and your eyes.

ARTISTS!

by Virginie Morgand & Laetitia Le Moine

Hard cover • 23x23 cm • 52 pages • 16 € • September 2025

NEW!

What if all children were, in their own way, budding artists? Getting their hands dirty with paint to trace shapes, collecting twigs to build a hut... that's creativity too!

This beautiful picture book is a tribute to children's inventiveness. It is based on a series of ten comparisons between artistic professions (painter, sculptor, photographer, architect, etc.) and the creative practices of young children.

For each profession, the first double-page spread introduces the tools used, while the second highlights the parallels between the actions of a child and those of a professional artist. The sculptor sets about modelling her subject, while the children shape the snow in the park. Or the fashion designer altering the outfit on his model, while the child invents his own costumes! An original concept to help little ones take their first steps into the world of art, in a magnificent, lively book.

Virginie Morgand studied drawing and animation. She draws inspiration from her collection of children's books and vintage toys. Her sparkling illustrations, with their retro style, are enhanced by a vibrant colour palette.

Laetitia Le Moine works in Paris at the Robillard gallery and as part of the team of DADA as an artistic and editorial project manager. She also coordinates art workshops in schools and cultural institutions.
